

**FEE SCHEDULE
FOR
NET-METERING AND DISTRIBUTED GENERATION**

The following fee schedule is intended to recover internal administrative costs of Conway Corp in processing interconnection applications as well as developing and administering Net Metering Rules. These fees do not recover the costs of external engineering review which are billed separately and must be paid in full prior to interconnection.

1. **Application Fee** - *This fee is intended to recover costs associated with an interconnection review.*

Distributed Generation Application Fee (\$/MW or part thereof).....	\$1000.00
Net Metering Application Fee	\$100.00

2. **Interconnection Fee** - *This fee is intended to recover administrative costs associated with interconnecting the facility. This fee is in addition to any required system upgrades.*

Distributed Generation Interconnection Fee (\$/MW or part thereof).....	\$2500.00
Net Metering Interconnection Fee	\$250.00

3. **Inspection Fee (per site visit)**..... \$100.00
This fee is intended to recover costs associated with performing inspections and re-inspections.
