NET METERING CUSTOMERS ARE ENTITLED TO CERTAIN CONSUMER PROTECTIONS. CONWAY CORPORATION CAN PROVIDE YOU MORE INFORMATION.

B. Preliminary Interconnection Terms & Conditions

1. *Requirements for Request.* For the purpose of requesting that Conway Corporation conduct a preliminary interconnection site review for a proposed Interconnecting Facility, or as otherwise requested by the customer, the customer shall notify Conway Corporation by submitting a completed Preliminary Interconnection Site Review Request. The customer shall submit a separate Preliminary Interconnection Site Review Request for each point of interconnection if information about multiple points of interconnection is requested. Part A, Standard Information, Sections 1 through 3 of the Preliminary Interconnection Site Review Request must be completed for the notification to be valid. If mailed, the date of notification shall be the third day following the mailing of the Preliminary Interconnection Site Review Request. Conway Corporation shall provide a copy of the Preliminary Interconnection Site Review Request to the customer upon request.

2. *Review by Conway Corporation.* Following submission of the Preliminary Interconnection Site Review Request by the customer, Conway Corporation will seek to review the facility interconnection and provide the results of its review to the customer, in writing, within 30 calendar days. If the customer requests that multiple interconnection site reviews be conducted Conway Corporation will make reasonable efforts to provide the customer with the results of the review within a timely fashion. If Conway Corporation cannot provide results within 90 days, Conway Corporation will provide the customer with an estimated date by which it will complete the review. Any items that would prevent Parallel Operation due to violation of safety standards and/or power generation limits shall be explained along with a description of the modifications necessary to remedy the violations.

3. *Fee.* Any person submitting a preliminary interconnection site review shall simultaneously submit payment of required fees or an amount equal to Conway Corporation’s estimate for work required.

4. *Nonbinding Report.* The preliminary interconnection site review is non-binding and need only include existing data and does not require Conway Corporation to conduct a study or other analysis of the proposed interconnection site in the event that data is not readily available. Conway Corporation shall notify the customer if additional site screening may be required prior to interconnection of the facility.

5. *Standard Interconnection Agreement.* The preliminary interconnection site review does not relieve the customer of the requirement to execute a Standard Interconnection Agreement prior to interconnection of the facility.

I hereby certify that, to the best of my knowledge, all of the information provided in this Preliminary Interconnection Site Review is true and correct and that I am authorized to execute this document on behalf of the Customer identified in Part A, Section 1.

I understand that as a net-metering customer, I am entitled to certain consumer protections.
