Prepare For Your
SmartBiz Installation

Thank you for choosing Conway Corp SmartBiz, your secure, all-in-one connectivity solution!

To ensure a seamless installation and customization of your network to meet your business needs, please review these important steps before the installation date:

BE PRESENT
The business owner/manager must be on-site for the entirety of the installation.

DOWNLOAD CONWAY CORP SMARTBIZ APP
Install the Conway Corp SmartBiz app on the owner/manager smartphone (available on Google Play and App Store). This app allows you to manage your network, view security alerts, monitor back-up devices and more.

LOGO FILE
Save your business logo on your smartphone if you'd like to customize your guest portal.

INTERNET BACK-UP DEVICE
Bring an internet back-up device (a smartphone with hotspot capability or dedicated WiFi device) if you wish to enable Network Resilience. This feature ensures uninterrupted connectivity by switching to back-up in case of an outage.
